

Terms of Service & Privacy Policy

Application: TheNewsCatcher

Status: Beta Version

Last Updated: May 12, 2026

1. Service Description

TheNewsCatcher is a news aggregation and summarization service using RSS feeds and Artificial Intelligence. These terms govern your use of the application and its features.

2. AI-Generated Content Disclaimer

Important: Article summaries are automatically generated by Artificial Intelligence models (Mistral AI). While we strive for accuracy, AI may produce hallucinations, errors, or biased interpretations.

TheNewsCatcher is not responsible for any inaccuracies. Users are strongly encouraged to read the full article via the original source link provided for every summary.

3. User Responsibility & RSS Feeds

User Warranty: By adding, subscribing to, or registering any RSS feed URL within the application, the user warrants that they have the legal right to access and use said feed.

The user is solely responsible for the feeds they choose to follow. TheNewsCatcher acts as a neutral technical intermediary. The user must ensure that their use of any feed complies with the original publisher's Terms of Service and copyright regulations.

4. Intellectual Property

TheNewsCatcher does not own the copyright of the original news articles or the content of the RSS feeds. We provide direct links to the original publishers. The application's interface, branding, and proprietary algorithms remain the exclusive property of **Arthur HECK**.

5. Data Privacy & Account Deletion

In compliance with GDPR and App Store requirements:

- **Account Deletion:** You can delete your account and all associated personal data at any time via the Settings menu. This action is instant and irreversible.
- **Personal Data:** We do not sell your personal identifiers (name, email) to third parties.

Data Usage & Monetization: We collect anonymized usage data (articles viewed, clicked, or summarized). We reserve the right to aggregate and anonymize this data for statistical analysis or commercial purposes. This data is strictly **anonymized** and cannot be traced back to an individual user.

6. Content Reporting & Safety

To ensure a safe environment, users have access to a **Report** button for every article. Any content reported as inaccurate, offensive, or violating third-party rights will be reviewed within 24 to 48 hours.

7. Copyright Complaints (Takedown Policy)

TheNewsCatcher respects intellectual property. If you are a publisher and wish to have your content removed, please contact us at: **copyright@thenewscatcher.com**.

We will act promptly to remove the disputed content within 48 hours. *Note for Publishers:* We adopt a proactive approach; our system may contact you to inform you of our traffic-redirection model. We are open to discussing specific display preferences.

8. Limitation of Liability

The service is provided "as is". TheNewsCatcher shall not be held liable for the content of external RSS feeds added by users or for any service interruptions during this beta phase.
